KSC/CCAFS HEALTH EDUCATION & WELLNESS PROGRAM (HEWP)

<http://hewp.ksc.nasa.gov>

SEPTEMBER 2006 POLLUTION PREVENTION: In our fast-paced lives, we tend to disregard many things. Unfortunately, one of the things we disregard is our environment. Our American lifestyle seems to give us almost no choice but to incorporate cars, fast food, disposable items, newspapers, air conditioning, household appliances, and many other items into our daily routines. Unfortunately, what we gain in ease, safety and comfort from using these items, we lose in the frustration of having to deal with the health problems that are directly related to the pollution we have put into the environment. The September 2006 packet addresses pollution education and prevention.

Hardcopies of the packet will be available at all medical and fitness facilities. If you or your department/organization would like to be added to the monthly packet hardcopy distribution list, please call Kris Calderon at 867-3414.
